

Trello Features

1. Workspace

The workspace is the top-level area grouping multiple boards for a team or organization.

Interface Elements

- **Workspace Header**
 - Workspace name and logo/avatar
 - Dropdown to switch between workspaces
 - "Create Board" button
 - Member count and "Invite" button
- **Sidebar**
 - Navigation links: Boards, Highlights/Home, Members, Settings
 - Favorite boards pinned at the top
- **Boards Grid View**
 - List of boards with:
 - Board name
 - Background thumbnail
 - Visibility icon (Private, Workspace, Public)
 - "Create new board" tile
- **Member Management Modal**
 - Add or remove workspace members
 - Manage roles (Admin, Member, Observer)
- **Workspace Settings Panel**
 - Rename workspace
 - Change icon or logo
 - Manage visibility and permissions

- Delete workspace
-

2. Board View (Project Level)

Each board represents a single project or workflow.

Top Bar

- Board title (inline editable)
- Star icon to mark as favorite
- Visibility selector (Private, Workspace, Public)
- Share/Invite button to open the member modal
- Power-Ups button (integrations)
- Automation button (Butler)
- Board menu toggle (opens right sidebar)

Main Workspace

- Horizontally scrollable layout containing lists
- "Add new list" button on the far right
- Drag-and-drop support for:
 - Reordering lists
 - Moving cards between lists

Board Sidebar (Right Menu)

- **About This Board**
 - Description and background settings
- **Activity Feed**
 - Chronological list of recent actions
- **Power-Ups**
 - Manage integrations
- **Automation**
 - Configure Butler rules

- **Members**
 - List of participants with avatars and roles
 - **Background Customization**
 - Color picker or Unsplash image selector
-

3. List Column (Workflow Stage)

Each list is a vertical column containing multiple cards.

Interface Elements

- **List Header**
 - Editable title
 - Context menu (Add card, Copy list, Move list, Archive list)
 - **Card Stack**
 - Vertically scrollable area displaying cards
 - Drag-and-drop support for reordering
-

4. Card (Task Item)

Cards represent individual tasks or work items.

Card Preview (on Board)

- Card title
 - Labels (colored tags)
 - Badges:
 - Checklist progress
 - Due date (color-coded)
 - Attachment icon
 - Comment count
 - Member avatars (assigned users)
 - Cover image or color (optional)
 - Hover actions for quick edit, move, or archive
-

Card Modal (Detailed View)

Opened when clicking on a card.

Header

- Editable card title
- "In list" label
- Move, Copy, Share, and Archive buttons

Left Section (Main Content)

- Description (rich text with markdown support)
- Activity and comments (with user mentions)
- Checklists (with progress bar)
- Attachments (files or links)
- Power-Up sections (calendar, custom fields, etc.)

Right Sidebar (Properties)

- Members (add or remove)
 - Labels (edit colors and names)
 - Checklists (create new)
 - Dates (start date, due date)
 - Attachments (upload or link)
 - Cover settings (color or image)
 - Custom fields (premium)
 - Automation buttons (Butler)
-

5. Members and Collaboration UI

Member Avatars

- Displayed on cards and in workspace header
- Tooltip with full name and role

Invite Modal

- Add users by email or link
- Assign roles (Member, Admin, Observer)

Activity Feed

- Log of user actions
- Filters by user, date, board, or card

Notifications

- Bell icon in header
 - Dropdown with mentions, reminders, and assignments
-

6. Global Navigation and Header

- Trello logo or home button
 - Global search bar (search boards, cards, and members)
 - Create button for new board, card, or workspace
 - Notifications icon
 - User menu with:
 - Profile and settings
 - Appearance (light/dark mode)
 - Logout
-

7. Additional Views (Premium and Enterprise)

- **Calendar View:** Monthly/weekly layout displaying cards by due date
 - **Timeline View:** Gantt-style timeline of cards with start/end dates
 - **Table View:** Spreadsheet-like layout for cards and fields
 - **Dashboard View:** Charts and statistics for progress tracking
 - **Map View:** Cards displayed by location data
 - **Workspace Overview:** Summary of all boards and recent activity
-

8. Customization and Settings

- Theme selection (light or dark)
 - Change board background (color or image)
 - Language selection
 - Notification preferences
 - Keyboard shortcuts help modal
-

9. Commenting and Communication

- Comment input with markdown and emoji support
 - User mentions (@username) with autocomplete
 - Reaction (emoji) support on comments
 - Edit or delete own comments
 - Activity timeline for collaboration history
-

10. Power-Up Interfaces

- Power-Up management panel (browse, enable, disable integrations)
 - Power-Up configuration modals
 - Embedded widgets on cards or boards (e.g., Google Drive previews, calendar widgets)
-

11. Responsive Design

- **Mobile:** Collapsible menus, bottom navigation, simplified modals
- **Tablet:** Adjustable sidebar layout
- **Desktop:** Full drag-and-drop, multi-column board view
